

Julieth AI

Scalable Learning Redefined.

Who we are

Julieth AI fuses the power of both artificial and human intelligence to help you get the mentorship and real-time guidance to achieve your career goals in tech.

The problem

- Beginners face confusion on where to start and waste time pursuing the wrong career.
- Learning online can feel isolating and boring.
- There is a lack of guidance for the overwhelming amount of tech resources available.
- Let's be honest, we can all relate to the difficulties of self discipline when learning a tech skill.
- Women account for less than 1/3 of total tech jobs worldwide.

The future of
skills acquisition
is in AI.

How it works

Step 1

Create your profile and take the personality test.

Step 2

Have a conversation with Julieth to determine and select the right career path for you.

Step 3

Start your personalized learning journey with the support from Julieth and real life tech professionals.

Step 4

Complete your certification and get hired!

Let's get
started
